## The David Roche Collection

The David Roche Foundation established in 1999 by the late David Roche AM (1930-2013) is one of the greatest collections of European decorative arts in a private institution in Australia.

Set within the sumptuous interiors of David Roche's Federation-era home, Fermoy House, is a lifetime's worth of collecting: antiques, paintings, and objects d'art, spanning two centuries of art and design from the early Rococo of France to Fabergé in Russia, to be preserved for future generations.

The adjoining gallery wing presents regularly changing exhibitions.
